Press Release For Immediate Release

ATRIUM NETWORK OFFERS CONNECTIVITY TO TURQUOISE

London 6 May 2008 - Atrium Networks, provider of smarter connectivity for the financial community announced today that it is offering connectivity to Turquoise, the multi-lateral trading facility established by nine leading European investment banks.

Commenting on the connectivity to Turquoise, Emmanuel Pellé, Director of Sales and Marketing of Atrium Network said, "For the first time in Europe, clients have choices when trading European equities. At Atrium Network we fully support efforts by Turquoise and other industry participants to provide greater competition in trading, clearing and settlement. However, choice can only be realised through connectivity and we are proud to offer our clients' access to Turquoise. Atrium Network's clients can take full advantage of the competitive price and cost opportunities on offer via our community extranet. Through a single point of connection, they will have access to the emerging liquidity pools and, as such, Atrium Network helps them fulfil their best execution obligations."

Commenting on the announcement, Yann L'Huillier, the Turquoise Chief Technology Officer said, "We are delighted that Atrium Network's diverse customer base is now well positioned to connect to Turquoise. We welcome the efforts that Atrium Network is making to provide low cost connectivity solutions for the financial services industry."

About Atrium Network:

Atrium Network™ provides smarter connectivity for the financial community. Clients benefit from fast, robust, secure, easy to install, scalable and price competitive community extranet, internet, intranet and VOIP solutions. Atrium Network is headquartered in Luxembourg with offices in London, New York and Paris. www.atriumnetwork.com

About Turquoise:

Turquoise is an entrepreneurial, independent company that will provide an innovative, pan-European and open trading platform treating all participants equally. Backed by the largest investment banks in Europe, Turquoise will have a critical mass of natural liquidity from day one: a venue that every trader will need to access.

Turquoise's dark pool and lit pool will be able to interact with each other to help the market trade more efficiently at improved prices. This unique, integrated order pool, combining and matching dark and transparent orders, will enable users to obtain price improvement for small orders and trade large order efficiently while minimising information leakage. The clearing & settlement function will be delivered by EuroCCP, a subsidiary of DTCC, a partnership that will help to drive down the total cost of trading.
